EDUCATION

International Baccalaureate Diploma Program Student

I am currently in the process of acquiring my IB Diploma. The courses that I chose for this endeavor consist of:

Higher Level Classes
- Mathematics AA
- Physics
- English A

Standard Level Classes
- French B
- Chemistry
- Information Technology in a Global Society (ITGS)

LANGUAGES

English ◆◆◆◆◆

Swahili ◆◆◆◇◇

French ◆◆◆◆◇

AWARDS / HONORS

- High honor roll in my IB classes. This requires that one achieves 38/42 or higher in their classes
- Completed a class on both C and Python taught by Ihub, an Innovation hub for the technology community in Nairobi
- Completed a certified course on cloud development from Yale University
- Grade 4 on ABRSM piano
- 12th Grade Representative. This means working alongside student council and representing my grade on a wide array of matters.

EXPERIENCES

Volleyball WAISAL

Competed as a member of the WAISAL volleyball team for my school for the past two years.
- WAISAL, or the Western African International Schools Athletics League is a West African athletic conference that consists of 8 international schools coming together to compete amongst each other in different areas.

Reforestation - Ivorian Ministry of forests collaboration

An active member of a reforestation group for the past two years
- We spent countless hours preparing and packaging saplings that were then planted in the Banco. a local forest in the country; this was to combat and reverse the effects of deforestation taking place, potentially decreasing the level of carbon emissions.

Model UN

Participated as an active member of the MUN club—even going as travelling to conferences— for four years. This took place in between two years of inicativity that arose due to COVID 19.

Canteen Logger—Tamu Tamu Cuisine

Gathered two schoolmates together and created an app that digitized the process of logging people that eat at the canteen.
- This works through an android app that we developed, which sends the different food and snack orders directly from the app directly to their database, removing the need to write down people's names on a big book and type them out later.

Job in Teaching Programming to kids

Paid to teach the programming fundamentals to children in primary school for the past two years

Animation YouTube Channel—Thoose animating dudes

Created and uploaded dozens of animated videos alongside my friend on various topics (2017-2019).
- The channel is under the name, Those Animating Dudes and has a total of 1,033 views
